

Echo

**Top of the bill
quality and design!**

The Echo most innovative, high quality entry unit, designed by M-LOCKS

Meet the Echo! Unique innovative entry unit, high quality in all areas:
From design and quality into durability.

Design

The matt chrome angled housing with ribbed edge, combined with a high-quality flat keyboard finished in high gloss white or black gives the Echo a chic look. A blue LED signal underlines the elegant look of this keyboard, designed by M-LOCKS.

Quality

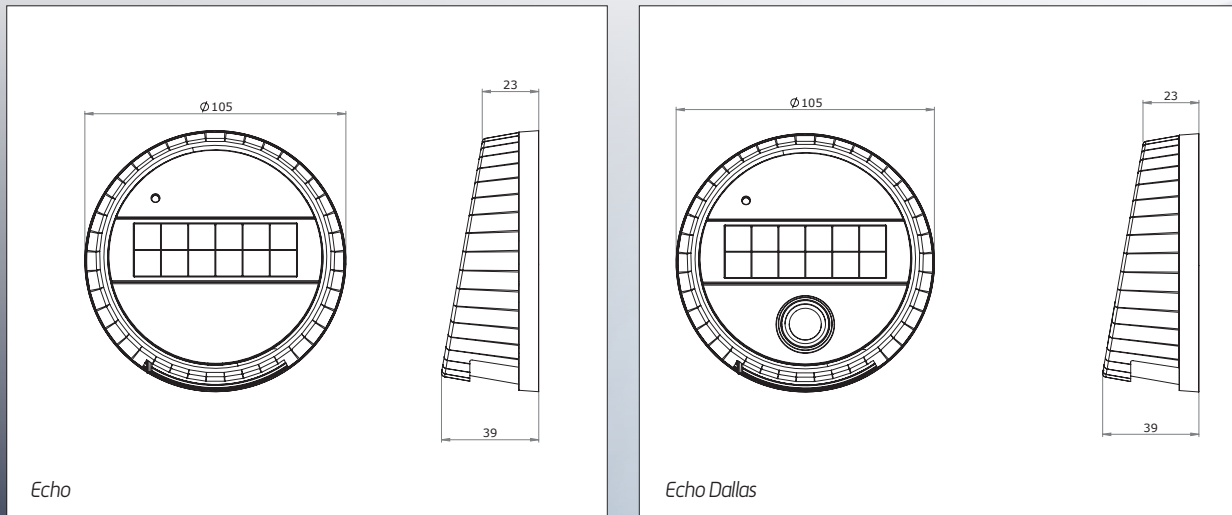

A screwed metal base plate with a heavy metal housing and high quality hard plastic keys form the basis of this robust, durable entry unit. Only high quality materials, because nothing but the best is good enough for the Echo!

What you need to know about the Echo

The Echo can be mounted both fixed and turnable without additional accessories. The ribbed edge provides excellent grip when turning the keyboard. Certainly the Echo is available with and without Dallas reader.
