

M-LOCKS

Echo, Top of the bill quality and design!

Meet the Echo, most innovative, high quality entry unit, designed by M-LOCKS. During Security Essen 2016 we introduced this unique entry with positive feedback from our customers. The Echo will be available within two months. Please take a look at our documentation [here](#). For further information please send an e-mail to sales@m-locks.com.

New! Live chat on m-locks.com

New techniques, new developments, of course M-LOCKS uses them too. Quickly ask a question or discuss briefly and then afterwards save the chat. It gives you the opportunity to read back the conversation. Use the chat function on www.m-locks.com. During working hours Arwin Klein Gunnewiek, Gerrit Kellerman and Miranda Sevenich are on hand to answer your questions.

Security Essen 2016, saying goodbye to Leo Martens

Security Essen 2016 was special for us. Not only because we have presented the Echo and of course met a lot of our customers but also because it was the occasion for our customers to say goodbye to Mr. Leo Martens. A lot of you took this opportunity. We and Leo Martens would like to say thank you for that.
